## Bur Brush

**Toothbrush style** bur brush with stainless steel bristle and solid elongated handle. Fully autoclavable.

**Bur Brush Stainless Steel Bristle 3-1001**

**Code 392200 Min Order -1 $17.50**

**Telescopic Style - Quick clean bur brush**

**Code 9502300 $33.30 each**

## Bur Guard – YDM

**Code 260002 Bur Guard - YDM, Pink $20.50 ea**
**Code 260003 Bur Guard - YDM, Blue $20.50 ea**
**Code 260004 Bur Guard - YDM, Green $20.50ea**

- **Base rotates to hold either FG or RA or HP burs.**
- **Holds 12 burs**
- **Height adjustable cover locks in burs & rotates to become autoclavable to 135C.**
- **Vibrant colours**

## Bur/Small Parts Holder -

**Code BurPartH $69.95**

- **Uses: Holder for burs or small parts in Ultrasonic /Washer Disinfector and/or Autoclave**
- **Robust/ Heavy Duty Design**
- **Completely Stainless Steel, wont rust**
- **Holder splits in half via a large screw thread for easy connection and solid closure**
- **Diameter : 50mm**
- **Height: 35mm**
- **Weight: 129.5g**

## Dappen Dishes

### Dappen Dish Ongard Mixed Colours

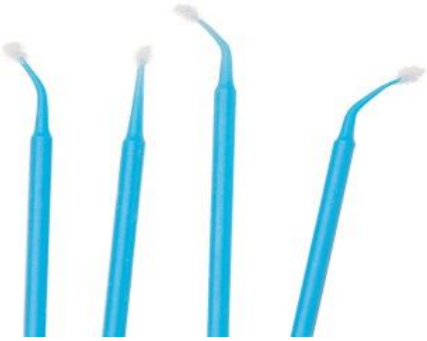
**Code 3702 Super Fine White**



## Ultra Brush Microbrush

**Box/200 $49.35**
**Code 953257 Ultrabrush Fine 1.0mm Blue/Orange Refill**
**Code 953255 Ultrabrush Reg 2.00mm Yellow/Green Refill**

# Cements, Liners & Medicaments

## Alveolex – Dry Socket Paste

**Code 15001 2 x 3gm Syringes $79.20**

Dry socket paste with propolis and without irritating eugenol or fibrous particles.
Fill the socket with the paste, then suture to avoid contamination by food or other elements present in the mouth.
Is 100% absorbable by the body.
Can be used in all extractions to prevent Alveolitis and to stimulate healing in diabetic patients for example (+/- 50% faster healing)

## Calcium Hydroxide Pulpdent Paste

**Code 8791880 Pulpdent Paste 3ml $59.30**

**Radiopaque • Non-Setting**
**The Original, Non-Setting, Pre-mixed Calcium Hydroxide Paste for Root Canal Therapy and Vital Pulp Therapy**
Internationally acclaimed as the world's finest treatment for:

- **Vital Pulp Therapy**
- **Pulpal Healing**
- **Dentin Bridge Formation**
- **Root Canal Therapy**

**Pulpdent Paste is the original premixed calcium hydroxide methylcellulose pulpal dressing. It is indicated for direct pulp capping, pulpotomy and pulpal curettage procedures, and it is used routinely as an intracanal dressing between office visits to cleanse root canals and prevent flare-ups.**
**Pulpdent Paste has a pH > 12**
**Pulpdent Paste promotes favorable periapical healing and is the treatment of choice in complicated cases involving root resorption, traumatic injuries and other instances where calcium hydroxide therapy is indicated.**
**When used for vital pulp therapy, Pulpdent Paste stimulates consistent dentin bridge formation. The new dentin bridge is visible clinically after approximately 2-3 months.**

## Cavitemp Temporary Filling Material

**Code 142320 $28.85 Jar28g**

**Ready to use temporary filling material in a synthetic resin**
**Adequate set yet easy to remove**
**Good adhesion to dentin and excellent marginal seal**
**Sets on contact with saliva**

# Etch

## Ongard Acid Etch Gel Blue Syringe Kit

**Code 355070 50ml Etch Gel Syringe, 10 Applicator Syringes, 60 Disposable Tips $91.45**

- **Optimum level of phosphoric acid (40%) gives an effective etch pattern**

## Stones

### Yellowstone – Ainsworth

Super smooth pouring, excellent hardness and very low setting expansion make this the ideal dental stone for most laboratory processing task Ainsworth Yellowstone is a modern classic, trusted by thousands of professionals for its unique physical properties. It sets to a smooth, shiny surface and offers minimal splintering when grinding. No wonder it is Australia's favourite dental stone

**Code AIYS59 5 Kg Pail $56.25 each**
**Code AIYS20P 20Kg Pail $145.85 each**
***For items 20kg & over please ask for Freight quote**

### Die Stone – Ainsworth

### Diamond Rock 5Kg Code AIDR5P $115.65

Scannable Ultra-Hard Die Stone.
It offers a leading hardness and wear resistance thanks to extremely high transverse and compressive strengths.
It mixes easily with a low water content, pours cleanly and offers a long working time and a rapid setting time. It also has an ultra-low setting expansion of just 0.07%.
Nothing else comes close for accuracy and strength. Ainsworth DiamondRock is ideal for all crown and bridge work, and also suitable for other work when maximum accuracy is required.

**S7XTRA  Ready to Use  5 Litre**

**Code S7CON-5LTR  $228.60 ea**
**Concentrate 5 Litre  (Makes 50 Litres)**
**2 pumps will dilute to make up 500ml**
**3 pumps will dilute to make up 750ml**

XTRA S-7 FOR CLEAN AND DIRTY CONDITIONS REACTIVE BARRIER TECHNOLOGY

### Reactive Barrier Technology explained:

**Reactive Barrier Technology is a specialized micro emulsion which provides a sustained release system.**
**If you leave S-7XTRA to dry you enable the Reactive Barrier Technology providing added biosecurity and protection between cleans.**
**Once applied the S-7XTRA provides a double protection against pathogens, as it kills pathogens once applied, and at the same time a reactive barrier is created on the surface. Any pathogens landing on the surface reactivates the S-7XTRA, and continues to be effective for up to 72 hours. This does not negate the need for daily cleaning.**

# Towels

## Vera Soft Towels

### Low Linting Multipurpose Towels

- Strong & durable when wet or dry
- Ideal as Tray liner or cleaning & drying instruments
- Shelf top dispense pack

**Code** **Min Order – 1 x carton**

**Protective sheath for delicate scissors and sharp instruments prevents pouch strike through**

# Sterilisation Monitoring

## Bowie Dick- Green Card T

**Code PL254 15-Pkt $56.35**

The Green Card T is specially designed for daily monitoring of pre-vacuum steam sterilisers operating at 134C to detect the presence of residual air. The special pouch packaging prevents the indicator card from being exposed to excessively wet steam conditions. Used daily in an empty steriliser prior to processing any loads.

- Meets EN867-1 Class B standards
- Meets ISO 11140-1 Class 2 standards
- Meets EN867-5 standards
- Lead free
- Easy interpretation
- Permanent colour change (no reversion of colour change unlike pH indicators)

# Nordent Cassettes

**Reduce Instrument replacement costs due to dull, broken instruments**
**Durable – all quality heavy gage stainless steel**
**Available In:**
**3 Cassette Sizes**
**Many Capacity Options**
**6 Colors - blue, teal, fuscia, yellow, light green or white**

## Small Cassette – Code C1 $193.75

**Available in:**
**Open configuration**
**5 instruments capacity**

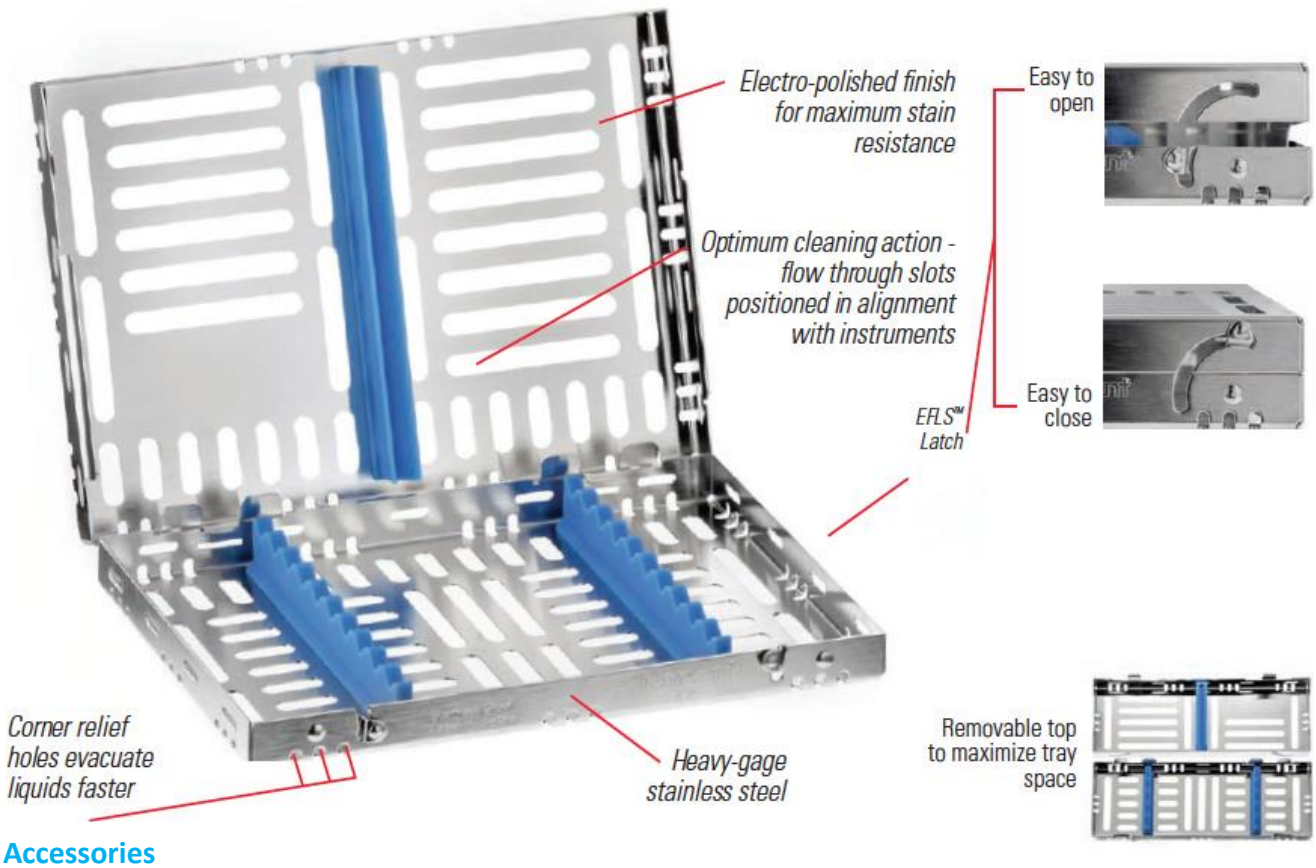
## Medium Cassette – Code C2 $254.10

**Available in:**
**Open configuration 10 instruments**
**8 instruments plus 1" accessory area**
**5 instruments plus 2 ½ " accessory area**

## Large Cassette – Code C3 $322.15

**Available in:**
**Open configuration 20 instruments**
**18 instruments plus 1 ½" accessory area**
**16 instruments plus 2 ½" accessory area**
**15 instruments plus 3" accessory area**
**13 instruments plus 4" accessory area**
**10 instruments plus 5 ½" accessory area**
**8 instruments plus 6 ½" accessory area**

**Nordent Cassettes are built to last and come with a 5 year unconditional guarantee against breakage, misalignment and corrosion**
***Double Sided Cassettes also available in small Medium and Large. Please ask for a quote.**



## Accessories

**Small Parts Box – Code CSPB**
**37mm x 2mm x25mm $70.85**

**Large Parts Box – Code CLPB**
**76mm x 32mm x 2.5mm $95.05**

**Air Water Syringe Clip –**
**Code CAWSC $19.45**

***delivery eta for some instruments approximately 4 weeks**

# Nordent - Diagnostic

## Mirror Handles

**Mirror Handle (Simple Stem) with Duralite Handle** **Code HM18** **$41.35**

**Mirror Handle**

## Probes/Explorers

**More online at: http://nordent.com/art/pdf/catalog/Diagnostic.pdf**
The Probes are made from spring tempered stainless steel and are machine ground to exacting tolerances.
Each tip is then hand sharpened and formed by expert craftsmen
**All with Duralite handle**.*Standard also available *images shown with colour rings extra

**Single End #23** **Code 51136** **$36.60**

**Single End #6** **Code 51134** **$36.60**

**Single End #6XL** **Code REEX6XL** **$36.60**

**Single End #17** **Code REEX17** **$36.60**

**Double End Probe Explorer 23/6** **Code 51137** **$48.95**

**Double End Probe / Explorer (17/23)** **Code 51131** **$48.95**

## Periodontal Probes – Single End

**More to view online at: http://nordent.com/art/pdf/catalog/Diagnostic.pdf**

**Single End Periodontal Williams Probe with Duralite handle** **Code REPCOW** **$58.45**
Coded Williams Probe 1-2-3-5-7-8-9-10 mm markings

## Periodontal Probes – Single End, continued

**Single End Periodontal Nth Carolina Screening Probe with Duralite Handle** **Code REPCN12** **$58.45**

With 1-2-3-4-5-6-7-8-9-10-11-12mm markings

**Single End Periodontal N22 with Duralite Handle** **Code REPCN22** **$58.45**

Colour coded Probe with 2-4-6-8-10-12 markings

**Single End Periodontal N15 with Duralite Handle** **Code REPCN15** **$58.45**

Colour coded Probe with 1-2-3-4-5-6-7-8-9-10-11-12-13-14-15 markings

## Periodontal Probes – Double End

**Periodontal Probe/Explorer Double End with Duralite Handle** **Code REPCOW-23** **$72.00**

Coded Williams Probe 1-2-3-5-7-8-9-10 mm markings with #23 Shepherd's Hook Explorer

**Periodontal Probe/Explorer Double End with Duralite Handle** **Code REPCN12-23** **$72.00**

Coded Nth Carolina Screening Probe 1-2-3-4-5-6-7-8-9-10-11- 12mm markings with #23 Shepherds hook explorer

# Nordent – Hygiene

## Scalers & Curettes - More to view online at: http://nordent.com/art/pdf/catalog/Hygiene.pdf

***Duralite handles pictured with all scalers** ***Standard handle also available**

**Single End Sickle** **Code RESCN5** **$83.25**

A moderate size, medium-reach sickle with a blade width of 0.9mm that tapers to a point.

**Offset Sickle (H6/H7)** **Code RESCN67** **$83.25**

Both sickles have an identical moderate size, medium-reach length and blade widths of 0.9mm that taper to a point. The tips have a 10° mirror image offset to allow better access to anteriors and premolars. This design is also known as H6/H7.

**Anterior Lingual Hoe (Lingual Stain Remover)** **Code RESCALSR** **$83.25**

Combines contra angle anterior hoe and contra angled spoon into one instrument that easily removes stain from anterior lingual surfaces.
The hoe has a 2mm blade width and makes it easy to 'push back' the sulcus as you scale along the gum line.
The spoon has a 2mm diameter that easily adapts to the concavities and grooves of the upper lingual anatomy.

## Nordent Scalers continued –

### Sickle/Hoe Combination

**Anterior Sickle Spoon #1** **Code RESCN1 $83.25**

Combines a small size, medium reach length sickle that has a 0.8mm blade width that tapers to a point with a long reach contra angle spoon blade hoe that has a blade diameter of 2mm for anterior lingual surfaces.

**Posterior Scalette N135** **Code RESCN135 $83.25**

Combines a long reach shank and a thin curette blade that is pointed like a scaler to provide easy adaptation to both supra and sub gingival areas and excellent interproximal access. The mirror image tips have a 0.8mm blade width set on 1mm terminal shanks with a 12mm reach.

**Anterior/Posterior Sickle #129** **Code RESCN129 $83.25**

Mirror image blades on a medium reach terminal shank. The blades taper to a point from a 0.8mm width and have a reach of 10mm.

**Columbia #2R-2L** **Code RESCCO2R-2L $83.25**

The terminal shank is 1.2mm in diameter and 14mm long with an elliptical blade shape that is 1.2mm wide.

**Columbia #4R-4L** **Code RESCCO4R-4L $83.25**

The terminal shank is 1.1mm in diameter and 12mm long with an elliptical blade shape that is 1.2mm wide. *image shown with colour rings

**Langer #3-4** **Code RESCLN3-4 $83.25**

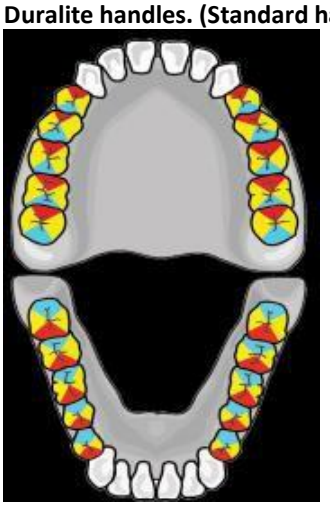
Has bends similar to the Gracey 13-14. The terminal shank is 1mm in diameter and 9mm long with a blade width of 0.9mm.

**Langer #5-6** **Code RESCLN5-6 $83.25**

Has bends similar to the Gracey 7-8. The terminal shank is 1mm in diameter and 16mm long with a blade width of 0.9mm.

## Gracey Curettes - all $83.25 each with standard terminal shank and blade.

**Duralite handles. (Standard handles available)**



*Use this color-coded chart to select the correct Gracey patterns for your application.*

***Anteriors***

**White-** *All Surfaces*

*Gracey Patterns 1-2, 3-4 or 5-6*

***Premolars and Molars***

**Yellow**- *Buccal & Lingual Surfaces Gracey Patterns 7-8 or 9-10*

**Red-***Mesial Surfaces*

*Gracey Patterns 11-12 or 15-16*

**Blue-***Distal Surfaces*

*Gracey Patterns 13-14 or 17-18*

## Standard Gracey Curettes continued –

### Gracey #1-2 — Code RESCGR1-2

Short contra-angle for incisors and cuspids Terminal shank reach is 11mm

### Gracey #3-4 — Code RESCGR3-4

Short contra-angle for incisors and cuspids. Terminal shank reach is 11mm

### Gracey #5-6 — Code RESCGR5-6

Medium shank and slight contra-angle for bicuspids and molars. Terminal shank reach is 14mm

### Gracey # 7-8 — Code RESCGR7-8

Medium contra-angle for facial and lingual surfaces of bicuspids and molars. Terminal shank reach is 12mm

### Gracey #9-10 — Code RESCGR9-10

Long contra-angle for molars and less accessible root surfaces. Terminal shank reach 12mm.

### Gracey #11-12 — Code RESCGR11-12

All mesial surfaces of bicuspids and molars. Terminal shank reach is 8mm.

### Gracey #13-14 — Code RESCGR13-14

All distal surfaces of bicuspids and molars. Terminal shank reach is 9mm.

### Gracey #11-14 — Code RESCGR11-14

Mesial Distal combination combines the mesial tip of the Gracey #11 and the distal #14 tip to allow completion of the facial or lingual sextant without changing instruments.

### Gracey #12-13 — Code RESCGR12-13

Mesial Distal combination combines the mesial tip of the Gracey#12 and the distal Gracey#13 tip to allow completion of the facial or lingual sextant without changing instruments.

### Gracey #15-16 — Code RESCGR15-16

Modified version of the Gracey #11-12 allows better access and a more comfortable hand and finger position for all mesial surfaces of bicuspids and molars. The terminal shank reach is 9mm.

### Gracey #17-18 — Code RESCGR17-18

Modified version of the Gracey #13-14 allows better access and a more comfortable hand and finger position for all distal surfaces of bicuspids and molars. The terminal shank reach is 7mm.

***Long Reach, Mini Blade/Long Reach & Rigid Gracey's available**

## InstRenew® Sharpening Assistant

**Code SSM2V3 $1,815.00**

InstRenew is the only instrument sharpening device developed by instrument makers to make it **EASY FOR ANYONE** to sharpen **ANY BRAND** and **ANY PATTERN** of Scalers and Curettes with professional results every time.
The patented design makes it possible to **achieve perfect factory blade angles** without the guesswork and frustration that are common with other sharpening methods.
If you have been looking for **a cost effective, fast and easy way to improve your in-house sharpening program** that will get everyone in your practice sharpening with the exact same angle every time, then InsRenew is the answer
**See a complete video demonstration at:** http://nordent.com/instrenew/index.html

**3 Step Method It's Easy!**

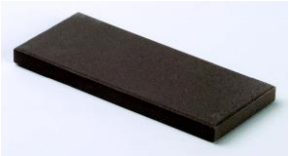
1- **Position the blade**

2- **Tip clamp grasp**

3- Sharpen the blade

## Nordent Sharpening Stone

**Code SS6 Sharpening Stone, Ceramic Medium Grit $63.20**



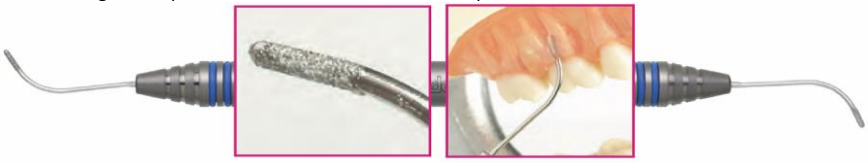
## Nordent – Diamond Furcation Files

Diamond Coated Furcation Files have a thin profile for easy sub gingival access.
The tips are made from a special spring tempered stainless steel that resists breakage.
The blades have a fine diamond coating on the inside curvature that is used to remove calculus and a smooth un-coated back to protect soft tissue.
The cutting action of the diamond coating allows a multidirectional stroke pattern.

### Diamond File #1

**Code CEDF1 $169.50**

Mirror image tips for facial and lingual adaptation. The blade has a round shape and is 1.0mm in diameter.



### Diamond File #2

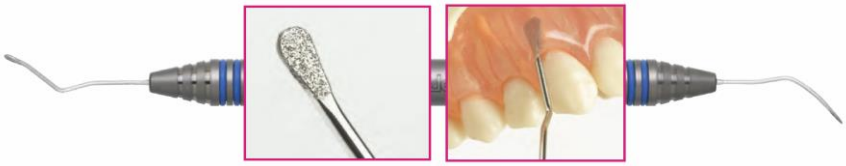
**Code CEDF2 $169.50**

The blades are set at opposing angles and have a round shape that is 1.0mm in diameter set on a 14mm terminal shank.
Excellent for mesial and distal adaptation.

### Diamond File #3

**Code CEDF3 $169.50**

Designed to cover a wider area in tight mesial and distal areas.
The flattened "tear-drop" shaped blade is 2mm wide and 0.5mm thick. The terminal shanks allow a 14mm reach.



# Nordent – Implant Scalers

## ImplaMate Scalers

- **With tips manufactured from solid titanium, ImplaMate scalers and Curettes will not scratch implant abutments and are a safe and effective way to maintain a valuable investment.**
- **ImplaMate offers a choice of 6 popular patterns hence there is no additional learning curve.**
- **ImplaMate scalers never need sharpening.**
- **ImplaMate tips have been coloured purple to distinguish them from your routine scalers and curettes.**

**Min Order -1 $143.45 each with Duralite handle**

**H6/H7** **Implamate Scaler Sickle Hygienist** **Code CEISN6-7**

**204SCR** **Implamate Scaler Posterior Sickle** **Code CEIS204S**

**5/6CR** **Implamate Curette Barnhardt** **Code CEISBH5-6**

**1-2CR** **Implamate Universal Curette Langer** **Code CEISLN1-2**

**3-4CR** **Implamate Universal Curette Langer** **Code CEISLN3-4**

**5-6CR** **Implamate Universal Curette Langer** **Code CEISLN5-6**

**N137M** **Implamate Anterior Scalette** **Code CEISN137**

# Nordent Restorative Instruments

**More available to view online at:** [http://nordent.com/restorative/index.html](http://nordent.com/restorative/index.html)

## Endodontic –

### Explorers #DG16 — Code REEX16 — $56.05

Both tips are 16mm in length and set at different angles of 45° and 70°.

### Root Canal Plugger #5-7 — Code REEN5-7 — $72.60

The working ends are 21mm long with a .02mm taper. #5 (D1= .58mm / D16=1.2mm) #7 (D1=.76mm / D16=1.2mm).

### NiTi Spreader #D11T — Code REEND11T — $ 64.35

The working end is 21mm long. D1=.25mm D16=.86mm

## Nordent Restorative

## Excavators – $70.30 each All with Duralite Handle

### Spoon #1S — Code REEC1S

1.0mm diameter. This excavator is also known as #38-39.

### Spoon #1 — Code REEC1

1.2mm diameter. This excavator is also known as the #17.

### Spoon #2 — Code REEC2

1.6mm diameter. This excavator is also known as the #18.

### Spoon #3 — Code REEC3

2.0mm diameter. This excavator is also known as the #19.

### Spoon #4 — Code REEC4

2.4mm diameter. This excavator is also known as the #20.

# Nordent – Restorative continued

## Burnishers

**$67.30 each With Duralite Handle**

**Ball #43** **Code REBR43**

1.9mm/1.6mm diameters.

**Ball/Football** **Code REBR27-29**

1.6mm/3.6mm diameters

## Condensers/Pluggers **$67.30 each**

**Available in plain or serrated tips. All with Duralite Handle.**

**#6-8** **Code RECN6S8**

Serrated Tips

Tip Diameters are 1.9 and 2.3mm

**Mortenson** **Code RECNMORT**

The blades are extra long and tapered with non-serrated tips.

The tapered blades have the following diameters: 1.9-1.1mm and 2.3-1.6mm

## Carver

**With Duralite Handle.**

**Hollenback #3S** **Code RECAH3S $67.30**

The blades are 6.5mm long and 1.5mm wide. Also known as a half-hollenback. *image shown with standard handle

## Placement – Stainless Steel Paddles

**$71.45 each All with Duralite Handles**

**Double Paddle #1** **Code REPFI1**

Identical small blade paddles set at opposing angles that are 7mm long/2mm wide.

**Curved Paddle 'LR'** **Code REPFILR $84.40**

Mirror image blades are 11mm long and 1.8mm wide

# Nordent Composite Instruments

Duraflex composite instruments are crafted of exotic stainless steel spring wire.
This unique material provides superior strength and durability while allowing the tips to flex when placing and shaping composite material.
The tips **are coated with titanium nitride that prevents "pull back" when manipulating and placing composite.**
**More available to view online at:**
http://nordent.com/art/pdf/catalog/Restorative.pdf
**All with Duralite Handle: $84.40 each**

## Composite Double Paddle #1T Med Double Paddle **Code REPFI1T**

Identical small blade paddles set at opposing angles that are 7mm long / 2mm wide.

## Composite Paddle/Condenser #2T **Code REPFI2T**

Combines a wide flared blade paddle that is 9mm long/3.25mm wide with a 1.7mm diameter condenser that has a flat end

## Composite Paddle/Condenser #3T **Code REPFI3T**

Combines a small paddle that is 7mm long /2mm wide with a 1.1mm diameter condenser that has a flat end.

## Composite Double Paddle #4T **Code REPFI4T**

Identical flared blade paddles set at opposing angles that are 11mm long/2.0mm wide.

## Composite Double Paddle #5T **Code REPFI5T**

Identical wide, flared blade paddles set at opposing angles that are 9mm long/3.25mm wide.

## Composite Double Paddle #8AT **Code REPFI8AT**

Identical small blade paddles set at opposing angles that are6mm long / 1.5mm wide.

## Composite Paddle /Condenser #20T **Code REPFI20T**

Combines a long flared blade paddle that is 11mm long /2mm wide with a 2.0mm diameter condenser that has a rounded end.

## Composite Micro-Curve Paddle #26T **Code REPFI26T**

Mirror image blades are 6mm long and 1.5mm wide. Ideal for small pit & fissure or minor anterior

# Nordent Composite Instruments

**Composite Acorn #29T** **Code REPFI29T**

Two Acorn shaped placement tips. One end has a 2.3mm diameter, the other has a 2.8mm diameter.

**Composite Paddle/Condenser #30T** **Code REPFI30T**

Two condenser tips 2.0mm and 1.4mm diameter

**Composite Ball/Ball # 32T** **Code REPFI32T**

Two ball shaped placement tips. One end is 1.25mm diameter and the other is 1.7mm diameter

**Composite Double Paddle #39T** **Code REPFI39T**

Identical medium size, elliptical cross section, parallel sided blade paddles set at opposing angles that are 9 mm long/ 2 mm wide.

**Composite Double Paddle #50T** **Code REPFI50T**

Double Paddle at 0/90 degrees. Blades are very thin and flexible for easy adaptation in tight interproximal areas & anterior veneers.

**Composite Paddle/Acorn #53T** **Code REPFI53T**

This paddle/anatomical burnisher combination is designed for class II posterior restorations that require a fine artistic touch. The 90` paddle is elliptical in shape, quite thin and only 7mm long and 1.8mm wide. It is combined with a medium size acorn burnisher.

**Composite Double Paddle #GG1** **Code REPFIGG1**

This versatile instrument for: mesial marginal ridge, lingual contour, mandibular incisor, distal marginal ridge.

# Nordent Composite Instruments

**Composite Curved Paddle 'LRT'** **Code REPFILRT $84.40**

Mirror image blades 11mm long/1.8mm wide. Ideal for class V.

**Composite Ultra Fine Carver IPC** **Code RECAIPCT $84.40**

The flat blades are 10 mm long and 1.5 mm wide and are sharp around the entire periphery. The blades are 0.4 mm thick to enhance interproximal access. *image shown with standard handle

# Gingival Cord Packers- straight blade

**Nordent #113 with Duralite Handle**

**Code REGPNP113 Plain Tip $73.85**
**Code REGPNS113 Serrated Tip $73.85**

Mirror image blades that have a 45 degree offset

**Nordent #122 with Duralite Handle**

**Code REGPNP122 Plain Tip $73.85**
**Code REGPNS122 Serrated Tip $73.85**

Blades set at opposing angles

# Nordent Crown Remover

**Crown Remover Code CRN134 $129.30**

The most popular Crown Remover gives you easier access, less preparation and more patient comfort.
Mirror image blades are off-set 45° and can engage prepared slots on any surface of the crown.
The blades will fit slots as narrow as 1mm and are made from a special high tensile stainless steel alloy so they won't bend.
The exclusive **DuraLite® HEXagonal handle** provides superior leverage and control.

# Nordent Surgical Instruments

**Full Catalogue Nordent Surgical Instruments online at:** http://nordent.com/art/pdf/catalog/Surgical.pdf

**Please ask for a quote on any Nordent Instrument.**

# Periodontal Chisels

**Fedi #1 with Duralite Handle** **Code CECPFEDI1 $138.70**

Double ended opposing blades that are 1.75mm wide with semi-circular cutting edges on each side and set at a 10 degree angle.

**Ochsenbein #1-2 with Duralite Handle** **Code CECPOCH1-2 $138.70**

A double-ended version. Both blades are 5mm wide.

# Nordent Surgical Instruments

## Periosteal Elevators

**Buser with Duralite Handle** **Code CEEPBUSER $142.30**

Combines an offset teardrop blade and a straight spear-shaped blade. Both are 4mm wide and have a sharp periphery.

**Molt #9 with Duralite Handle** **Code CEEPM09 $142.30**

Combines a large curved blade that is 7.5mm wide and has a rounded tip with a curved blade that is 3.5mm wide and has a pointed tip. Both ends are non cutting.

**Prichard #3 with Duralite Handle** **Code CEEPPR3 $142.30**

Combines a large, flat blade used for retraction and a smaller, curved tip used for reflection and retraction of tissue.

**Seldin #23** **Code EPS23 $132.90**

Flat Handle with two wide tips

## Periodontal Hoe

**Ochsenbein #4 with Duralite Handle** **Code CECPOCH4 $138.70**

Mirror image tips with blades that are 3.5mm wide. The blade angles allow excellent access to distal surfaces.

## Periotomes

**Periotome #1 with Duralite Handle** **Code REEPTOME1 $173.25**

Anterior with a straight blade and socket expander

**Periotome #2 with Duralite Handle** **Code REEPTOME2 $173.25**

Contra – angle for posteriors

## Retractor

**University of Minnesota** **Code RCM $79.00**

# Nordent Surgical Instruments

## Scalpel Blade Handle

**Code HB5 $136.40**

Perfectly balanced round handle allows easy rotation in difficult to reach areas (155mm)

## Surgical Curettes

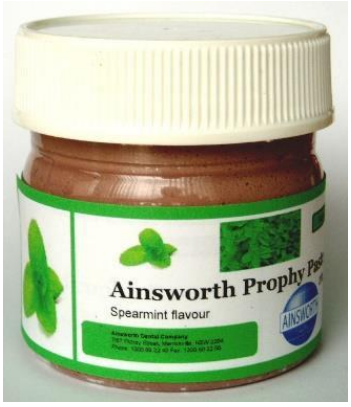
# Propylaxis Paste

## Propylaxis Paste Spearmint 200g

**Code AIPP Ainsworth $22.65**

A spearmint flavoured prophy paste ideal for cleaning and polishing the teeth. The splatter-free formula offers enough inital abrasion to remove discolourations and stains, and will gradually become less coarse in the mouth to facilitate final polishing of the tooth surface. Ideally suited for use in conjunction with rotary bristles, brushes or rubber prophy cups.



## Prophylaxis Paste Junior Bubblegum

**Code AIPP-JB 200g $22.65 - Ainsworth**

The splatter-free formula offers enough inital abrasion to remove discolourations and stains, and will gradually become less coarse in the mouth to facilitate final polishing of the tooth surface.

## Propylaxis Paste Cups Spearmint with fluoride

**Code AIPP-CUPS 200 per jar- Ainsworth $91.45**

A spearmint flavoured prophy paste

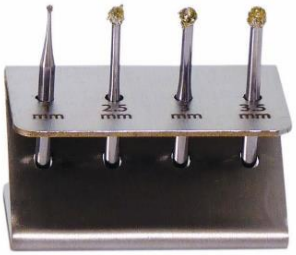
ethOss®
TRUE BONE REGENERATION

- A synthetic bi-phasic matrix for true bone regeneration
- Non Bovine – no human or animal components. Ethical/cultural patient choice
- Shows 50% new host bone in just 12 weeks
- The Calcium Sulphate formulation acts as a built-in barrier against soft tissue ingress, removing the need for collegen membrane
- EthOss is completely absorbed and replaced by new host bone over the course of treatment
- Delivered sterile, available in 2 syringe size choices (0.5cc and 1cc)
- Easy to dispense syringe delivery system, the material will start to harden after 1 minute
- Does not suffer wash-out in bloody sites
- Suitable for use in GBR, Periodontitis, Buccal defects, Sinus Grafts and Extraction socket filling

| | | |
|---|---|---|
| Code 270000 | 3 x syringes 0.5cc | $673.75 |
| Code 270001 | 3 x syringes 1.0cc | $794.35 |

# ETHOSS ®
# DEGRANULATION BUR KIT

**Code 270006 $649.40 1 x Kit**



**Key Features & Benefits:**

- Designed morphologically to remove soft tissues without harming the bone
- Quick and effective debridement
- Precision manufacture – diamond edges do not grab the bone compared to traditional tungsten burs
- Excellent for preparing a defect for bone grafting with ethoss®

**Advantages**

- Optimal debridement of the inflammatory tissue – cannot be achieved manually
- Multi task drills can be used in implantology, periodontal surgery, endodontic surgery, and root removal
- Maximum safety when working near anatomical structure
- Reusable (more than 100 procedures). Must be cleaned as per manufacturer's instructions

coreflon

## Coreflon – PTFE Box/12 $303.25

- New non-porous smooth d-PTE material
- Will not absorb blood, saliva, bacteria and food residue
- D-PTE material is more flexible, thereby adapts to tissue volume changes during healing
- White thread and black needle ensures excellent visibility in the surgical field
- Needles are manufactured from an exotic metal alloy, resulting in a hard razor sharp edge

## ICU Protect Sports Amber Curing Light

**Code 1935131 $30.50**

## Blu Tab Waterline Maintenance Tablets

**Code 221001 To treat 700-750ml water $79.85 /50 tabs**
**Code 221002 To treat 2 litres of water $113.35/50 tabs**

### Quick & Easy

**Simply drop an effervescing tablet in your independent water bottle each time you refill it. It is that simple! BluTab does the work for you. Effective waterline maintenance takes only seconds per day.**

### Economical and Convenient

**Premix and refill water bottles between patients to avoid interruption. BluTab eliminates the labour and cost associated with weekly "shock" treatments. BluTab remains effective for up to 28 days. No waste, simply use it until it's gone.**

### Safe for Patients and Staff

**BluTab is specifically formulated to be continuously present in your waterlines. Each tablet contains super low concentrations of non-toxic ingredients, so it is safe for your patients, your team and your equipment. BluTab is also odourless and tasteless.**

### Bonding

**BluTab has no effect on bonding system strengths. *Testing has shown that there is no statistical difference between bond strengths of enamel or dentin samples whether using distilled water or BluTab solution. (*University of Detroit Mercy School of Dentistry, Waterline Treatment Affect on Enamel and Dentin Bonding to Composite, October 2005)**

***Recommended to shock water lines before commencing use of BluTab.**

## Waxes

### Investo Bite & Boxing Wax-500g

**Code INW131 $40.85**

**Investo Bite & Boxing wax is a softer wax used for bite registration which offers excellent stability. A soft wax which is red in colour. The sheet size is 160mm x 80mm, and thickness 1.5mm**

### Ainsworth Eziset Bite Sticks, medium

**Code AIW058 48 sticks $41.45**

**Preformed bite rims for setting teeth into. Medium hardness and pink in colour. Stick size 125mm x 10mm thickness 10mm**

### Investo Pink Modelling Wax – 500g

**Code INW100 $27.70**

**Investo Modelling Wax is Australia's most popular modelling wax - and with good reason! This general all purpose wax is carefully produced using the old- fashioned wax rolling method - the only way to produce the unique properties that discerning technicians demand. It is ideal for set-ups, bite rims and try ins. It is a medium hardness wax and pink in colour. The sheet size 160mm x 80mm and a thickness of 1.5mm.**

### Periphery Wax Soft 100g - Ainsworth

**Code AIW075 $49.95**

**Light blue wax sticks used to expand the periphery of the impression tray. Soft and easily molded. Also available in Hard sticks (dark blue). Stick size 15omm**

### Sticky Wax Sticks - Ainsworth

**Code AIW060 55g $26.75**
**Code AIW059 454g $107.95**

**Ideal wax for denture repairs - acts like glue, holding the denture in place for repair. Sets to a brittle consistency when dry. Medium hardness and yellow in colour Stick size 100 x 10 thickness 10mm**

## X–Ray

### Dental X- Ray Sleeves

**Code 33800 Pkt/100 (10 sheets of 10 pockets) $22.80**
**Plastic dental x-ray viewing and storage pouches with light diffusing base.**
