Calcium Hydroxide Pulpdent Paste

Code 8791880 Pulpdent Paste 3ml $59.30
Radiopaque • Non-Setting
The Original, Non-Setting, Pre-mixed Calcium Hydroxide Paste for Root Canal Therapy and Vital Pulp Therapy

Internationally acclaimed as the world's finest treatment for:

- **Vital Pulp Therapy**
- **Pulpal Healing**
- **Dentin Bridge Formation**
- **Root Canal Therapy**

Pulpdent Paste is the original premixed calcium hydroxide methylcellulose pulpal dressing. It is indicated for direct pulp capping, pulpotomy and pulpal curettage procedures, and it is used routinely as an intracanal dressing between office visits to cleanse root canals and prevent flare-ups.
Pulpdent Paste has a pH > 12
Pulpdent Paste promotes favorable periapical healing and is the treatment of choice in complicated cases involving root resorption, traumatic injuries and other instances where calcium hydroxide therapy is indicated.
When used for vital pulp therapy, Pulpdent Paste stimulates consistent dentin bridge formation. The new dentin bridge is visible clinically after approximately 2-3 months.

Cavitemp Temporary Filling Material

Code 142320 $28.85 Jar28g
Ready to use temporary filling material in a synthetic resin
Adequate set yet easy to remove
Good adhesion to dentin and excellent marginal seal
Sets on contact with saliva

Stones

Yellowstone – Ainsworth

Super smooth pouring, excellent hardness and very low setting expansion make this the ideal dental stone for most laboratory processing task Ainsworth Yellowstone is a modern classic, trusted by thousands of professionals for its unique physical properties. It sets to a smooth, shiny surface and offers minimal splintering when grinding. No wonder it is Australia's favourite dental stone

Code AIYS59 5 Kg Pail $56.25 each
Code AIYS20P 20Kg Pail $136.25 each
***For items 20kg & over please ask for Freight quote**

Die Stone – Ainsworth

Diamond Rock 5Kg Code AIDR5P $115.65

Scannable Ultra-Hard Die Stone.
It offers a leading hardness and wear resistance thanks to extremely high transverse and compressive strengths.
It mixes easily with a low water content, pours cleanly and offers a long working time and a rapid setting time. It also has an ultra-low setting expansion of just 0.07%.
Nothing else comes close for accuracy and strength. Ainsworth DiamondRock is ideal for all crown and bridge work, and also suitable for other work when maximum accuracy is required.

Evolution Polychloroprene gloves may just be the most comfortable gloves you can wear!

Using ground breaking technology to produce a low modulus glove, ensuring softer, more elastic fit that can improve performance and reduce hand fatigue.
Advantages:
Comfort, protection & strength
Latex like feel without risk of latex allergies
Enhanced softness, extended wear comfort and a better fit
Proprietary polymer coating for 'glide-on' donning
High tensile strength and elongation
Strong puncture and tear resistance

A totally different glove
A totally different feel
A totally different experience

3 pumps will dilute to make up 750ml

Reactive Barrier Technology explained:

Reactive Barrier Technology is a specialized micro emulsion which provides a sustained release system.
If you leave S-7XTRA to dry you enable the Reactive Barrier Technology providing added biosecurity and protection between clean
Once applied the S-7XTRA provides a double protection against pathogens, as it kills pathogens once applied, and at the same time a reactive barrier is created on the surface. Any pathogens landing on the surface reactivates the S-7XTRA, and continues to be effective for up to 72 hours. This does not negate the need for daily cleaning.

XTRA S7 FOR CLEAN AND DIRTY CONDITIONS REACTIVE BARRIER TECHNOLOGY

Towels

Fresh'n Up Towels Min Order - 1

- Highly absorbent – removes particulates following procedures
- Moisturised with essential oils – instantly refreshes
- Individually foil-wrapped – stays fresh until ready to use
- Simple to use and easy to dispense

Sterilisation Monitoring

Bowie Dick- Green Card T

Code PL254 15-Pkt $56.35

The Green Card T is specially designed for daily monitoring of pre-vacuum steam sterilisers operating at 134C to detect the presence of residual air. The special pouch packaging prevents the indicator card from being exposed to excessively wet steam conditions. Used daily in an empty steriliser prior to processing any loads.

- Meets EN867-1 Class B standards
- Meets ISO 11140-1 Class 2 standards
- Meets EN867-5 standards
- Lead free
- Easy interpretation
- Permanent colour change (no reversion of colour change unlike PH indicators)
- Checks residual air in steam sterilisers

Sterilisation Monitoring

Heli-Check PCD with 250 strips

Code LT104 1 Kit $396.00

- Hollow Load testing meets EN 867-5 requirements
- A good vacuum for steam penetration at proper time and temperature will change indicator colour from pink to black
- Re-usable device for 250 uses
- Simple to load and remove indicator
- Low cost per test
- Packaged, one device with re-sealable bag of **250** high precision sterilant specific indicators

Helix Test –Chemdye

PCD with 250 strips
Code KH2X15 1 Kit $175.15

ISP® Helix Test PCD with 100 strips

Code 33002030 1 Kit $181.50

Used to ensure maximum steam penetration where hollow instruments or instruments with small lumina are concerned. It is easy to interpret with a clear and even colour change.
Complies with EN 867:5
Non toxic Ink and Adhesive back

Disposable Sterile Exam Kits

MDDI Three Instrument Exam/Perio Kit

Code 51-1 $2.95 each Min Order Box/100

Sterile single-use kits are high quality and feature precision made instruments with stainless steel tipped probes and ergonomically designed plastic handles for comfortable use

Contents:

1 x Double ended perio/sickle probe

1 x Front face mirror

1 x Tweezers

Duralast and Nordent Instruments:

Full range available on request

***Some Instruments may take approx. 4 weeks delivery**

Duralast Instruments – Diagnostic

Tweezers

Code	Min Order-1	
27120	Tweezer College With Stop -Duralast	$16.50 each
PJ-241	Tweezer College With Stop– Argus	$9.15 each

27121 College Tweezer Self locking $29.05 each

27122 Perry $25.75 each

27123 Meriam $18.30 each

Explorers/Probes

C Manufactured from420 and 440A German stainless steel

- Highly corrosion resistant handles
- We have chosen solid round handles for probes, explorers

Single End

27136 Probe S/E Fine Tip 23 Sickle $16.85 each

Double End

Code	Min Order-1	
27146	Probe D/E 5 Fine Tip - 23/17	$22.80 each

27137 Probe D/E Fine Tip - 23/6 $21.45 each

Duralast - Endodontic

Code 27550 Endodontic DE Probe (16) $34.20

Code 27558 Endodontic Plugger (10) $37.30

Code 27560 Endodontic Spreader (D11) $29.40

Code 27551 Endodontic Spreader (40) $29.40

Nordent - Diagnostic

Mirror Handles

Mirror Handle (Simple Stem) with Duralite Handle **Code HM18** **37.60**

Mirror Handle

Probes/Explorers

More online at: http://nordent.com/art/pdf/catalog/Diagnostic.pdf
The Probes are made from spring tempered stainless steel and are machine ground to exacting tolerances.
Each tip is then hand sharpened and formed by expert craftsmen
All with Duralite handle.*Standard also available

Single End #23 **Code 51136** **$33.25**

Single End #6 **Code 51134** **$33.25**

Single End #6XL **Code REEX6XL** **$33.25**

Double End Probe Explorer 23/6 **Code 51137** **$41.20**

Double End Probe / Explorer (17/23) **Code 51131** **$44.55**

Periodontal Probes – Single End

More to view online at: http://nordent.com/art/pdf/catalog/Diagnostic.pdf

Single End Periodontal Williams Probe with Duralite handle **Code REPCOW** **$53.15**
Coded Williams Probe 1-2-3-5-7-8-9-10 mm markings

Periodontal Probes – Single End, continued

Single End Periodontal Nth Carolina Screening Probe with Duralite Handle **Code REPCN12** **$53.15**

With 1-2-3-4-5-6-7-8-9-10-11-12mm markings

Single End Periodontal N22 with Duralite Handle **Code REPCN22** **$53.15**

Colour coded Probe with 2-4-6-8-10-12 markings

Single End Periodontal N15 with Duralite Handle **Code REPCN15** **$53.15**

Colour coded Probe with 1-2-3-4-5-6-7-8-9-10-11-12-13-14-15 markings

Periodontal Probes – Double End

Periodontal Probe/Explorer Double End with Duralite Handle **Code REPCOW-23** **$65.45**

Coded Williams Probe 1-2-3-5-7-8-9-10 mm markings with #23 Shepherd's Hook Explorer

Periodontal Probe/Explorer Double End with Duralite Handle **Code REPCN12-23** **$65.45**

Coded Nth Carolina Screening Probe 1-2-3-4-5-6-7-8-9-10-11- 12mm markings with #23 Shepherds hook explorer

Nordent – Hygiene

Scalers & Curettes - More to view online at: http://nordent.com/art/pdf/catalog/Hygiene.pdf

***Duralite handles pictured with all scalers** ***Standard handle also available**

Single End Sickle **Code RESCN5** **$75.70**

A moderate size, medium-reach sickle with a blade width of 0.9mm that tapers to a point.

Offset Sickle (H6/H7) **Code RESCN67** **$75.70**

Both sickles have an identical moderate size, medium-reach length and blade widths of 0.9mm that taper to a point. The tips have a 10° mirror image offset to allow better access to anteriors and premolars. This design is also known as H6/H7.

Anterior Lingual Hoe (Lingual Stain Remover) **Code RESCALSR** **$75.70**

Combines contra angle anterior hoe and contra angled spoon into one instrument that easily removes stain from anterior lingual surfaces.
The hoe has a 2mm blade width and makes it easy to 'push back' the sulcus as you scale along the gum line.
The spoon has a 2mm diameter that easily adapts to the concavities and grooves of the upper lingual anatomy.

Nordent Scalers continued –

Sickle/Hoe Combination

Anterior Sickle Spoon #1 **Code RESCN1 $75.70**

Combines a small size, medium reach length sickle that has a 0.8mm blade width that tapers to a point with a long reach contra angle spoon blade hoe that has a blade diameter of 2mm for anterior lingual surfaces.

Posterior Scalette N135 **Code RESCN135 $75.70**

Combines a long reach shank and a thin curette blade that is pointed like a scaler to provide easy adaptation to both supra and sub gingival areas and excellent interproximal access. The mirror image tips have a 0.8mm blade width set on 1mm terminal shanks with a 12mm reach.

Anterior/Posterior Sickle #129 **Code RESCN129 $75.70**

Mirror image blades on a medium reach terminal shank. The blades taper to a point from a 0.8mm width and have a reach of 10mm.

Columbia #2R-2L **Code RESCCO2R-2L $75.70**

The terminal shank is 1.2mm in diameter and 14mm long with an elliptical blade shape that is 1.2mm wide.

Columbia #4R-4L **Code RESCCO4R-4L $75.70**

The terminal shank is 1.1mm in diameter and 12mm long with an elliptical blade shape that is 1.2mm wide. *image shown with colour rings

Langer #3-4 **Code RESCLN3-4 $75.70**

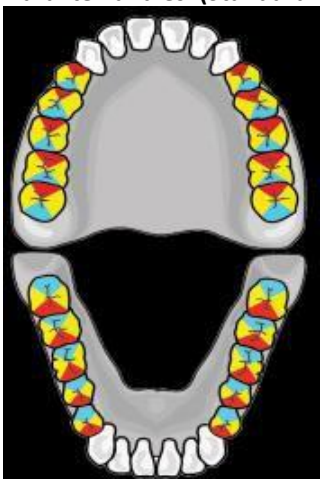
Has bends similar to the Gracey 13-14. The terminal shank is 1mm in diameter and 9mm long with a blade width of 0.9mm.

Langer #5-6 **Code RESCLN5-6 $75.70**

Has bends similar to the Gracey 7-8. The terminal shank is 1mm in diameter and 16mm long with a blade width of 0.9mm.

Gracey Curettes - all $75.70 each with standard terminal shank and blade.

Duralite handles. (Standard handles available)



Use this color-coded chart to select the correct Gracey patterns for your application.

Anteriors

White- *All Surfaces*

Gracey Patterns 1-2, 3-4 or 5-6

Premolars and Molars

Yellow- *Buccal & Lingual Surfaces Gracey Patterns 7-8 or 9-10*

Red-*Mesial Surfaces*

Gracey Patterns 11-12 or 15-16

Blue-*Distal Surfaces*

Gracey Patterns 13-14 or 17-18

Standard Gracey Curettes continued –

Gracey #1-2 — Code RESCGR1-2

Short contra-angle for incisors and cuspids Terminal shank reach is 11mm

Gracey #3-4 — Code RESCGR3-4

Short contra-angle for incisors and cuspids. Terminal shank reach is 11mm

Gracey #5-6 — Code RESCGR5-6

Medium shank and slight contra-angle for bicuspids and molars. Terminal shank reach is 14mm

Gracey # 7-8 — Code RESCGR7-8

Medium contra-angle for facial and lingual surfaces of bicuspids and molars. Terminal shank reach is 12mm

Gracey #9-10 — Code RESCGR9-10

Long contra-angle for molars and less accessible root surfaces. Terminal shank reach 12mm.

Gracey #11-12 — Code RESCGE11-12

All mesial surfaces of bicuspids and molars. Terminal shank reach is 8mm.

Gracey #13-14 — Code RESCGR13-14

All distal surfaces of bicuspids and molars. Terminal shank reach is 9mm.

Gracey #11-14 — Code RESCGR11-14

Mesial Distal combination combines the mesial tip of the Gracey #11 and the distal #14 tip to allow completion of the facial or lingual sextant without changing instruments.

Gracey #12-13 — Code RESCGR12-13

Mesial Distal combination combines the mesial tip of the Gracey#12 and the distal Gracey#13 tip to allow completion of the facial or lingual sextant without changing instruments.

Gracey #15-16 — Code RESCGR15-16

Modified version of the Gracey #11-12 allows better access and a more comfortable hand and finger position for all mesial surfaces of bicuspids and molars. The terminal shank reach is 9mm.

Gracey #17-18 — Code RESCGR17-18

Modified version of the Gracey #13-14 allows better access and a more comfortable hand and finger position for all distal surfaces of bicuspids and molars. The terminal shank reach is 7mm.

***Long Reach, Mini Blade/Long Reach & Rigid Gracey's available**

InstRenew® Sharpening Assistant

Code SSM2V3 $1,540.00

InstRenew is the only instrument sharpening device developed by instrument makers to make it **EASY FOR ANYONE** to sharpen **ANY BRAND** and **ANY PATTERN** of Scalers and Curettes with professional results every time.

The patented design makes it possible to **achieve perfect factory blade angles** without the guesswork and frustration that are common with other sharpening methods.

If you have been looking for **a cost effective, fast and easy way to improve your in-house sharpening program** that will get everyone in your practice sharpening with the exact same angle every time, then InsRenew is the answer

See a complete video demonstration at: http://nordent.com/instrenew/index.html

3 Step Method It's Easy!

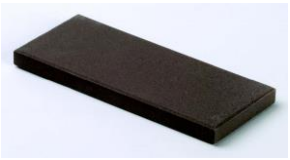
1- Position the blade

2- Tip clamp grasp

3- Sharpen the blade

Nordent Sharpening Stone

Code SS6 Sharpening Stone, Ceramic Medium Grit $56.50



Nordent – Diamond Furcation Files

Diamond Coated Furcation Files have a thin profile for easy sub gingival access.

The tips are made from a special spring tempered stainless steel that resists breakage.

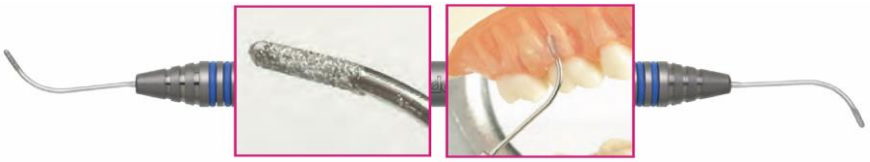
The blades have a fine diamond coating on the inside curvature that is used to remove calculus and a smooth un-coated back to protect soft tissue.

The cutting action of the diamond coating allows a multidirectional stroke pattern.

Diamond File #1

Code CEDF1 $154.00

Mirror image tips for facial and lingual adaptation. The blade has a round shape and is 1.0mm in diameter.



Diamond File #2

Code CEDF2 $154.00

The blades are set at opposing angles and have a round shape that is 1.0mm in diameter set on a 14mm terminal shank.
Excellent for mesial and distal adaptation.

Diamond File #3

Code CEDF3 $154.00

Designed to cover a wider area in tight mesial and distal areas.
The flattened "tear-drop" shaped blade is 2mm wide and 0.5mm thick. The terminal shanks allow a 14mm reach.

Nordent – Implant Scalers

ImplaMate Scalers

- With tips manufactured from solid titanium, ImplaMate scalers and Curettes will not scratch implant abutments and are a safe and effective way to maintain a valuable investment.
- ImplaMate offers a choice of 6 popular patterns hence there is no additional learning curve.
- ImplaMate scalers never need sharpening.
- ImplaMate tips have been coloured purple to distinguish them from your routine scalers and curettes.

Min Order -1 $130.45 each with Duralite handle

H6/H7 **Implamate Scaler Sickle Hygienist** **Code CEISN6-7**

204SCR **Implamate Scaler Posterior Sickle** **Code CEIS204S**

5/6CR **Implamate Curette Barnhardt** **Code CEISBH5-6**

1-2CR **Implamate Universal Curette Langer** **Code CEISLN1-2**

3-4CR **Implamate Universal Curette Langer** **Code CEISLN3-4**

N137M **Implamate Anterior Scalette** **Code CEISN137**

Nordent Restorative Instruments

More available to view online at: http://nordent.com/restorative/index.html

Endodontic –

Explorers #DG16 — Code REEX16 $50.95

Both tips are 16mm in length and set at different angles of 45° and 70°.

Root Canal Plugger #5-7 — Code REEN5-7 $66.00

The working ends are 21mm long with a .02mm taper. #5 (D1= .58mm / D16=1.2mm) #7 (D1=.76mm / D16=1.2mm).

NiTi Spreader #D11T — Code REEND11T $ 58.50

The working end is 21mm long. D1=.25mm D16=.86mm

Nordent Restorative

Excavators – $63.90 each All with Duralite Handle

Spoon #1S — Code REEC1S

1.0mm diameter. This excavator is also known as #38-39.

Spoon #1 — Code REEC1

1.2mm diameter. This excavator is also known as the #17.

Spoon #2 — Code REEC2

1.6mm diameter. This excavator is also known as the #18.

Spoon #3 — Code REEC3

2.0mm diameter. This excavator is also known as the #19.

Spoon #4 — Code REEC4

2.4mm diameter. This excavator is also known as the #20.

Nordent – Restorative continued

Burnishers

$61.15 each With Duralite Handle

Ball #43

Code REBR43

1.9mm/1.6mm diameters.

Ball/Football

Code REBR27-29

1.6mm/3.6mm diameters

Condensers/Pluggers **$61.15 each**

Available in plain or serrated tips. All with Duralite Handle.

#6-8

Code RECN6S8

Serrated Tips
Tip Diameters are 1.9 and 2.3mm

Mortenson

Code RECNMORT

The blades are extra long and tapered with non-serrated tips.
The tapered blades have the following diameters: 1.9-1.1mm and 2.3-1.6mm

Carver

With Duralite Handle.

Hollenback #3S

Code RECAH3S $61.15

The blades are 6.5mm long and 1.5mm wide. Also known as a half-hollenback. *image shown with standard handle

Placement – Stainless Steel Paddles

$64.95 each All with Duralite Handles

Double Paddle #1

Code REPFI1

Identical small blade paddles set at opposing angles that are 7mm long/2mm wide.

Curved Paddle 'LR'

Code REPFILR $76.75

Mirror image blades are 11mm long and 1.8mm wide

Nordent Composite Instruments

Duraflex composite instruments are crafted of exotic stainless steel spring wire.
This unique material provides superior strength and durability while allowing the tips to flex when placing and shaping composite material.
The tips **are coated with titanium nitride that prevents "pull back" when manipulating and placing composite.**
More available to view online at:
http://nordent.com/art/pdf/catalog/Restorative.pdf
All with Duralite Handle: $76.75 each

Composite Double Paddle #1T Med Double Paddle — Code REPFI1T

Identical small blade paddles set at opposing angles that are 7mm long / 2mm wide.

Composite Paddle/Condenser #2T — Code REPFI2T

Combines a wide flared blade paddle that is 9mm long/3.25mm wide with a 1.7mm diameter condenser that has a flat end

Composite Paddle/Condenser #3T — Code REPFI3T

Combines a small paddle that is 7mm long /2mm wide with a 1.1mm diameter condenser that has a flat end.

Composite Double Paddle #4T — Code REPFI4T

Identical flared blade paddles set at opposing angles that are 11mm long/2.0mm wide.

Composite Double Paddle #5T — Code REPFI5T

Identical wide, flared blade paddles set at opposing angles that are 9mm long/3.25mm wide.

Composite Double Paddle #8AT — Code REPFI8AT

Identical small blade paddles set at opposing angles that are6mm long / 1.5mm wide.

Composite Paddle /Condenser #20T — Code REPFI20T

Combines a long flared blade paddle that is 11mm long /2mm wide with a 2.0mm diameter condenser that has a rounded end.

Composite Micro-Curve Paddle #26T — Code REPFI26T

Mirror image blades are 6mm long and 1.5mm wide. Ideal for small pit & fissure or minor anterior

Nordent Composite Instruments

Composite Acorn #29T **Code REPFI29T**

Two Acorn shaped placement tips. One end has a 2.3mm diameter, the other has a 2.8mm diameter.

Composite Paddle/Condenser #30T **Code REPFI30T**

Two condenser tips 2.0mm and 1.4mm diameter

Composite Ball/Ball # 32T **Code REPFI32T**

Two ball shaped placement tips. One end is 1.25mm diameter and the other is 1.7mm diameter

Composite Double Paddle #39T **Code REPFI39T**

Identical medium size, elliptical cross section, parallel sided blade paddles set at opposing angles that are 9 mm long/ 2 mm wide.

Composite Double Paddle #50T **Code REPFI50T**

Double Paddle at 0/90 degrees. Blades are very thin and flexible for easy adaptation in tight interproximal areas & anterior veneers.

Composite Paddle/Acorn #53T **Code REPFI53T**

This paddle/anatomical burnisher combination is designed for class II posterior restorations that require a fine artistic touch. The 90` paddle is elliptical in shape, quite thin and only 7mm long and 1.8mm wide. It is combined with a medium size acorn burnisher.

Composite Double Paddle #GG1 **Code REPFIGG1**

This versatile instrument for: mesial marginal ridge, lingual contour, mandibular incisor, distal marginal ridge.

Nordent Composite Instruments

Composite Curved Paddle 'LRT' **Code REPFILRT $76.75**

Mirror image blades 11mm long/1.8mm wide. Ideal for class V.

Composite Ultra Fine Carver IPC **Code RECAIPCT $76.75**

The flat blades are 10 mm long and 1.5 mm wide and are sharp around the entire periphery. The blades are 0.4 mm thick to enhance interproximal access. *image shown with standard handle

Gingival Cord Packers- straight blade

Nordent #113 with Duralite Handle

Code REGPNP113 Plain Tip $67.15
Code REGPNS113 Serrated Tip $67.15

Mirror image blades that have a 45 degree offset

Nordent #122 with Duralite Handle

Code REGPNP122 Plain Tip $67.15
Code REGPNS122 Serrated Tip $67.15

Blades set at opposing angles

Nordent Crown Remover

Crown Remover Code CRN134 $106.85

The most popular Crown Remover gives you easier access, less preparation and more patient comfort.
Mirror image blades are off-set 45° and can engage prepared slots on any surface of the crown.
The blades will fit slots as narrow as 1mm and are made from a special high tensile stainless steel alloy so they won't bend.
The exclusive **DuraLite® HEXagonal handle** provides superior leverage and control.

Nordent Surgical Instruments

Full Catalogue Nordent Surgical Instruments online at: http://nordent.com/art/pdf/catalog/Surgical.pdf

Please ask for a quote on any Nordent Instrument.

Periodontal Chisels

Fedi #1 with Duralite Handle **Code CECPFEDI1 $126.10**

Double ended opposing blades that are 1.75mm wide with semi-circular cutting edges on each side and set at a 10 degree angle.

Nordent Surgical Instruments

Ochsenbein #1-2 with Duralite Handle **Code CECPOCH1-2 $126.10**

A double-ended version. Both blades are 5mm wide.

Periosteal Elevators

Buser with Duralite Handle **Code CEEPBUSER $129.35**

Combines an offset teardrop blade and a straight spear-shaped blade. Both are 4mm wide and have a sharp periphery.

Molt #9 with Duralite Handle **Code CEEPM09 $129.35**

Combines a large curved blade that is 7.5mm wide and has a rounded tip with a curved blade that is 3.5mm wide and has a pointed tip. Both ends are non cutting.

Prichard #3 with Duralite Handle **Code CEEPPR3 $129.35**

Combines a large, flat blade used for retraction and a smaller, curved tip used for reflection and retraction of tissue.

Periodontal Hoe

Ochsenbein #4 with Duralite Handle **Code CECPOCH4 $126.10**

Mirror image tips with blades that are 3.5mm wide. The blade angles allow excellent access to distal surfaces.

Periotomes

Periotome #1 with Duralite Handle **Code REEPTOME1 $167.95**

Anterior with a straight blade and socket expander

Periotome #2 with Duralite Handle **Code REEPTOME $167.95**

Contra – angle for posteriors

Retractor

University of Minnesota **Code RCM $71.90**

Nordent Surgical Instruments

Scalpel Blade Handle

Code HB5 **$123.95**

Perfectly balanced round handle allows easy rotation in difficult to reach areas (155mm)

Surgical Curettes

Lucas #84 with Duralite Handle **Code CECSL84** **$121.90**

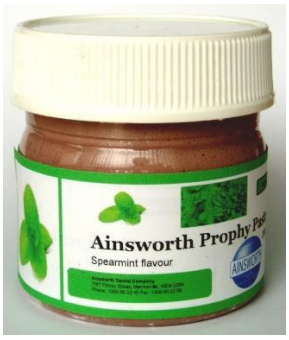
Propylaxis Paste

Propylaxis Paste Spearmint 200g

Code AIPP Ainsworth $22.65

A spearmint flavoured prophy paste ideal for cleaning and polishing the teeth. The splatter-free formula offers enough inital abrasion to remove discolourations and stains, and will gradually become less coarse in the mouth to facilitate final polishing of the tooth surface. Ideally suited for use in conjunction with rotary bristles, brushes or rubber prophy cups.



Prophylaxis Paste Junior Bubblegum

Code AIPP-JB 200g $22.65

The splatter-free formula offers enough inital abrasion to remove discolourations and stains, and will gradually become less coarse in the mouthto facilitate final polishing of the tooth surface.

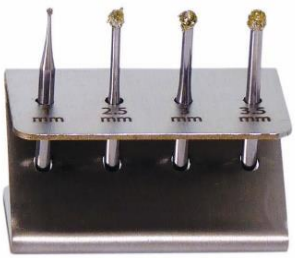
ethOss®
TRUE BONE REGENERATION

- A synthetic bi-phasic matrix for true bone regeneration
- Non Bovine – no human or animal components. Ethical/cultural patient choice
- Shows 50% new host bone in just 12 weeks
- The Calcium Sulphate formulation acts as a built-in barrier against soft tissue ingress, removing the need for collegen membrane
- EthOss is completely absorbed and replaced by new host bone over the course of treatment
- Delivered sterile, available in 2 syringe size choices (0.5cc and 1cc)
- Easy to dispense syringe delivery system, the material will start to harden after 1 minute
- Does not suffer wash-out in bloody sites
- Suitable for use in GBR, Periodontitis, Buccal defects, Sinus Grafts and Extraction socket filling

Code 270000	3 x syringes 0.5cc	$673.75
Code 270001	3 x syringes 1.0cc	$794.35

ETHOSS ®
DEGRANULATION BUR KIT

Code 270006 $572.00 1 x Kit



Key Features & Benefits:

- Designed morphologically to remove soft tissues without harming the bone
- Quick and effective debridement
- Precision manufacture – diamond edges do not grab the bone compared to traditional tungsten burs
- Excellent for preparing a defect for bone grafting with ethoss®

Advantages

- Optimal debridement of the inflammatory tissue – cannot be achieved manually
- Multi task drills can be used in implantology, periodontal surgery, endodontic surgery, and root removal
- Maximum safety when working near anatomical structure
- Reusable (more than 100 procedures). Must be cleaned as per manufacturer's instructions

Code	1 mm	2.5 mm	3.0 mm	3.5 mm
Head size	1 mm	2.5 mm	3.0 mm	3.5 mm
Total length	31 mm	31 mm	31 mm	31 mm

*latch attachment with RPM recommended is 800 – 1200.

Sutures

Gylcolon – Resorba

- Monofilament –no capillary, no sawing action
- Absorbs and ties like catgut
- Fast absorption 7-9 days half knot strength
- Optimum tissue compatibility, closely matches healing time to 50% tensile strength – 9 days

Coreflon – PTFE

- New non-porous smooth d-PTE material
- Will not absorb blood, saliva, bacteria and food residue
- D-PTE material is more flexible, thereby adapts to tissue volume changes during healing
- White thread and black needle ensures excellent visibility in the surgical field
- Needles are manufactured from an exotic metal alloy, resulting in a hard razor sharp edge

Code 1935131 $30.50

Blu Tab Waterline Maintenance Tablets

Code 221001	**To treat 700-750ml water**	**$71.65 /50 tabs**
Code 221002	**To treat 2 litres of water**	**$98.40 /50 tabs**

Quick & Easy

Simply drop an effervescing tablet in your independent water bottle each time you refill it. It is that simple! BluTab does the work for you. Effective waterline maintenance takes only seconds per day.

Economical and Convenient

Premix and refill water bottles between patients to avoid interruption. BluTab eliminates the labour and cost associated with weekly "shock" treatments. BluTab remains effective for up to 28 days. No waste, simply use it until it's gone.

Safe for Patients and Staff

BluTab is specifically formulated to be continuously present in your waterlines. Each tablet contains super low concentrations of non-toxic ingredients, so it is safe for your patients, your team and your equipment. BluTab is also odourless and tasteless.

Bonding

BluTab has no effect on bonding system strengths. *Testing has shown that there is no statistical difference between bond strengths of enamel or dentin samples whether using distilled water or BluTab solution. (*University of Detroit Mercy School of Dentistry, Waterline Treatment Affect on Enamel and Dentin Bonding to Composite, October 2005)

***Recommended to shock water lines before commencing use of BluTab.**

Waxes

Investo Bite & Boxing Wax-500g

Code INW131 $40.85

Investo Bite & Boxing wax is a softer wax used for bite registration which offers excellent stability. A soft wax which is red in colour. The sheet size is 160mm x 80mm, and thickness 1.5mm

Ainsworth Eziset Bite Sticks, medium

Code AIW058 48 sticks $41.45

Preformed bite rims for setting teeth into. Medium hardness and pink in colour. Stick size 125mm x 10mm thickness 10mm

Investo Pink Modelling Wax – 500g

Code INW100 $27.70

Investo Modelling Wax is Australia's most popular modelling wax - and with good reason! This general all purpose wax is carefully produced using the old- fashioned wax rolling method - the only way to produce the unique properties that discerning technicians demand. It is ideal for set-ups, bite rims and try ins. It is a medium hardness wax and pink in colour. The sheet size 160mm x 80mm and a thickness of 1.5mm.

Periphery Wax Soft 100g - Ainsworth

Code AIW075 $48.50

Light blue wax sticks used to expand the periphery of the impression tray. Soft and easily molded. Also available in Hard sticks (dark blue). Stick size 15omm

Sticky Wax Sticks - Ainsworth

Code AIW060 55g $26.75

Code AIW059 454g $107.95

Ideal wax for denture repairs - acts like glue, holding the denture in place for repair. Sets to a brittle consistency when dry. Medium hardness and yellow in colour Stick size 100 x 10 thickness 10mm
