EthOss DEGRANULATION BUR KIT

Save \$75 per kit!

- Designed morphologically to remove soft tissues without harming the bone
- Quick and effective debridement
- Precision manufacture – diamond edges do not grab the bone compared to traditional tungsten burs
- Excellent for preparing a defect for bone grafting with ethoss®
- Optimal debridement of the inflammatory tissue – cannot be achieved manually
- Multi task drills can be used in implantology, periodontal surgery, endodontic surgery, and root removal
- Maximum safety when working near anatomical structure
- Reusable (more than 100 procedures). Must be cleaned as per manufacturer's instructions
- Latch attachment, RPM recommended is 800 – 1200.
